- **The Quality Check:** List one specific step you will take to double-check your partner's work before the client sees it.

  e.g. The Quality Check:

  "Before the client sees the work, I will perform a 'Final Alignment Audit.' I will check every graphic against the client's original brand colors and ensure there are no spelling errors in the text. I will not send the work until it receives my personal 'Quality Stamp' of approval."

  Before submitting any work to a client, I will conduct a "Marketing Quality Review" by: Checking that all designs align with the brand guidelines.
